1/ In addition to the six items shown here national goals for other livestock and livestock products were suggested by WFA as follows: Hens and Pullets on farms January 1, 420,000,000 and March 1, 354,000,000; Egg Production on Farms, 3,920,000,000 dozen; Chickens Raised 700,000,000; Commercial Broilers 213,000,000; Turkeys Raised 35,666,000; Beef Cattle on Farms at 1st of Year 39,200,000 and at end of year 36,900,000; and Cattle and Calf slaughter 35,000,000 head. The WFA recommendations for three of these items, however, have been revised in line with addition needs as follows: Hens and Pullets on Farms January 1 475,000,000; Egg Production on Farms 4,350,000,000 dozen; and Chickens Raised 745,800,000. Since the State recommended goals for Hens and Pullets and Chickens raised were based on the earlier WFA suggestions they are not shown here. Goals were not established on a State basis for the other items.
